*Reviews for Tarka's inspirational dual talk
with Katie-Jane L'Herpiniere*

'Tarka and Katie went down a storm – they were fantastic and I am really pleased we chose them as our speakers for the evening. Feedback was all extremely positive. They were both such lovely down-to-earth people, wanting to share their experiences – and the story is amazing. Certainly made the audience think (including me!) about 'what's next' in life.'

Midlands Excellence

'Tarka and Katie gave an inspirational talk about their journey to our international conference. All those who attended rated them exceptionally highly (with top marks) on their feedback forms at the end of the conference. The presentation was so inspiring, thought provoking, motivating, and interesting.... the short dvd clips at the end almost had our most hardened delegates having to push back tears. Excellent. Really, really, really, really brilliant. I was (as you can probably tell) very pleased.'

Aspen Aerogels (USA)

'This is the first year we have had *out of the box* speakers at the conference in amongst the traditional business lectures and it worked better than we could have hoped. The feedback received from delegates ranged from "inspirational and motivational" to "thought provoking and moving" with a clear remit that they would like more of the same again. It was entertaining, uplifting and incredibly informative with all being able to relate to the principle of translating survival techniques into business skills. We can't thank you both enough.'

British Equestrian Trade Association

'Excellent.'

Clifford Solutions

'It was a really enjoyable talk full of interest and good humour, full of great anecdotes and adventures, good stories and excellent photography. I thought their massive achievement was modestly understated and I found myself seriously impressed by the distances covered through hostile conditions. It really was a most enjoyable lecture.'
