

Katie-Jane L'Herpinier
Explorer (& former model)
First woman to walk the Great Wall of China

Testimonials

'I have to say that Katie-Jane was THE most inspirational speaker I've ever seen (and I've seen a few) I was absolutely transfixed throughout the whole presentation and have to say I didn't want it to end!!'

Dale Carneige

'What can we say. Katie-Jane was an absolute inspiration and made our final Women in Business Lunch & Learn of 2010 the best yet. Her strength of character and courage knows no bounds and the whole audience was speechless with many tears at the end of her fascinating insight into model turned adventurer. Highly recommended and absolutely fascinating.'

Unique: Women in Business

'Katie-Jane!... What an inspiration! Her strength of character and courage left us all, I think, speechless and emotional. A brilliant lesson in embracing change, surviving tough times and achieving the impossible.'

Unique: Women in Business

'I heard Katie-Jane speak and was exceptionally impressed and inspired.'

Hayleys

'Her presentation and story was inspirational, uplifting and captivating. Everyone on my table agreed and was full of praise for her motivational speech. Her humour and wit really captured the audience and made it possible to relate to Katie's situation even though we were all in awe of what she has achieved.'

We are Slater

'I just wanted to say how truly inspirational Katie's presentation was -
absolutely fantastic.'

Advance Performance

'What an amazing story! Katie's journey from model to adventurer shows that the only barrier to fulfilling our dreams are inside our own minds, or perhaps you just need to meet a Frenchman skiing uphill. Thank you again.'

Digital Explorer

'Katie is an amazing person and a natural presenter, the delegates really warmed to her. A truly excellent presentation, really inspirational and motivating, making people believe the impossible is possible.

'We wouldn't hesitate in recommending Katie and definitely would use her again.'

Lancaster Chamber of Commerce

'Katie gave an excellent talk with some wonderful photographs. She must have tremendous courage. A most enjoyable night. (There were very few seats left in the lecture room: the busiest night we have had for a long time!)

Royal Scottish Geographical Society

'Engaging, inspirational and humbling. Katie's story portrays the life and journeys of unique and driven individuals, testing their bodies and mental strength in some of the most hostile environments known to mankind. Whilst many of us can only marvel at the physical achievements undertaken, the real message is in the focused approach to tasks that can be accomplished and only excuses will prevent you from achieving.'

Bournemouth University

Testimonials for an inspirational Dual talk with Tarka L'Herpiniere

'Tarka and Katie went down a storm – they were fantastic and I am really pleased we chose them as our speakers for the evening. Feedback was all

extremely positive. They were both such lovely down-to-earth people, wanting to share their experiences – and the story is amazing. Certainly made the audience think (including me!) about ‘what’s next’ in life.’

Midlands Excellence

‘Tarka and Katie gave an inspirational talk about their journey to our international conference. All those who attended rated them exceptionally highly (with top marks) on their feedback forms at the end of the conference. The presentation was so inspiring, thought provoking, motivating, and interesting.... the short DVD clips at the end almost had our most hardened delegates having to push back tears. Excellent. Really, really, really, really brilliant. I was (as you can probably tell) very pleased.’

Allen Carr’s Easyway International Ltd

‘Katie-Jane and Tarka’s presentation was entertaining and uplifting and yet still delivered a very relevant message. The photographs and video footage were stunning. The way they interacted with each other to tell their story was great. Friendly, informative and humorous.’

Orchard Information Systems

‘Excellent.’

Clifford Solutions

‘It was a really enjoyable talk full of interest and good humour, full of great anecdotes and adventures, good stories and excellent photography. I thought their massive achievement was modestly understated and I found myself seriously impressed by the distances covered through hostile conditions. It really was a most enjoyable lecture.’
