**Everyman Adventurer: Think Possible**

Oliver inspired our employees with his epic rowing and running adventures. His unique 'I am a novice breaking world records' approach shows all of us what we can achieve when we 'think possible'. And he does this in such a captivating and unassuming manner.

Oliver came out to Wellington College with Future Foundations as part of the delivery team. He integrated really well into our team from the outset, and was the hit of the day, with his session scoring the highest in terms of our feedback scores. He has a great message and his 'Everyman' approach is deeply appealing to the young people we were dealing with. Oliver delivers his material with simplicity and humility. The audience related to him immediately and enjoyed his natural delivery. We wish Oliver all the very best on his journey forward to take his core message of 'Think Possible' to young people all over the world.

Oliver Dudley is a true inspiration. He came to give a talk about his transatlantic record-breaking row, his 7in on 7 feat, and his 'Think Possible' message to a packed house at Leap Anywhere. Some people stand apart from the crowd and have what it takes – that mental toughness to achieve the apparently unachievable. Oliver is one of those people. He tells his story from the heart in such an unassuming manner that it hit everyone in the audience right where it counts. We're all stronger for it. I would recommend that any group invite him to inspire others and share his message. Brilliant.
